Blinds and Shutters for any room

VELUX Roof Windows fill your home with daylight and fresh air. With the right choice of VELUX Blinds and Shutters, they can also help you create the best possible indoor climate. Whether you want total darkness in your bedroom or you'd like to soften the afternoon sunlight in your living room, the VELUX range of sun protection products can offer you exactly what you need.

It's not only the daylight coming through your roof window you can control. By installing VELUX Roller Shutters or Awning Blinds you can reduce the energy loss or solar gain entering your home. Managing the energy balance of your home provides a more pleasant internal environment for you and your family to enjoy.

There's no match like the perfect match

Original VELUX Blinds and Shutters go hand-in-hand with VELUX Roof Windows. We manufacture the largest assortment of roof window blinds on the market – and all of our sunscreening products guarantee you a perfect fit, a great look and long lasting, reliable performance.

Just a Pick&Click!® away

The patented VELUX Pick&Click! ® system makes installation fast and simple thanks to pre-fitted mounting brackets. And no matter what type of VELUX Roof Window you have – small or large, old or new – rest assured that all our blinds and shutters will fit flawlessly every time.

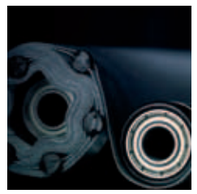
Pick&Click!®

A rainbow of colours

From hidden cords and slim designs to darkened blackout side rails and Oeko-tex fabrics, we always add that extra touch. So whether you need light control, heat protection, a sophisticated look or a splash of colour, you are sure to find the right blind for your needs. Simply choose from our wide range of blind types and select a colour or pattern that complements your room.

Comfort and convenience

We offer a variety of convenient ways to operate all of our blinds and shutters. You can choose from Manual, Electric or Solar Powered operation – and take advantage of our remote-controlled, automated system when you opt for Electric or Solar. This innovative system puts comfort at your fingertips by letting you program when and how you ventilate your home and manage daylight.



It's all in the details

VELUX's award-winning, high performance blinds and shutters are rigorously tested to give you flawless operation and minimal fading even after years of daily exposure to the elements. The VELUX engineering and design teams have spent their entire careers perfecting our products and creating new solutions. That's why more people choose VELUX for their homes and workspaces than any other brand.

Improving your home's indoor climate

Your VELUX Roof Windows bring warmth and light into your home. Controlling these elements with the help of VELUX Blinds and Shutters is the key to achieving an ideal indoor climate in your home.

VELUX Blinds and Shutters offer improved insulation, daylight control and heat protection. So you can cut your home's energy consumption by minimising heat loss in winter and heat gain in summer. Add an Electric or Solar Powered blind and you can open and close them exactly when you need to, at the touch of a button.

Protect your home against heat loss

Although modern roof windows are well insulated, exterior roller shutters or interior VELUX Energy Blinds can further reduce heat loss. This extra insulation is especially important on a chilly night or during the winter months.

Protect your home against the heat from the sun

Passive heating from the sun is a major benefit on a cold day, but can lead to over-heating in warmer months. Even the classic VELUX Awning Blind reduces heat intake up to 72%.*

*The technical values of various accessories used within this brochure are determined through standardized tests and calculations, all in compliance with the international standards EN ISO 12567-2, EN 13363-2 and ISO 15099.

Reduce
heat intake
by up to 72% with VELUX Awning Blind

Day
On a sunny day, use your VELUX Awning Blind to control how much heat and light enters your home. On a chilly day, use the roller shutter to help keep out the cold.

Improve
insulation
by up to 21% with VELUX Energy Blind

Night
At night, your VELUX Energy Blind or Roller Shutter offer privacy and keep your home dark and warm.

VELUX Awning Blinds block the sun rays before they hit the pane.

Creating your dream retreat

The perfect bedroom is a space where you can relax and recharge your batteries. Roof windows play a major role in making your bedroom comfortable and inviting by creating a bright and airy setting. VELUX offer a full range of elegant solutions to help you get the best night's sleep.

VELUX Blackout Blinds come in a range of colours and designs.

Daytime or dreamtime

If blackout is your only care, our standard blackout blinds offer a light-proof material to ensure a restful sleep even in the middle of the day.

If you use the bedroom as a quiet space for reading or watching television, glare reduction is also important. VELUX Energy Blinds can be positioned anywhere on the window, so you can block the sun just where you need it and get privacy – without sacrificing daylight or your view. When fully drawn, energy blinds effectively darken the room and add extra insulation.

If you want maximum comfort and light control, our duo blackout blind is a blackout blind and a pleated blind in one. VELUX Duo Blackout Blinds offer the best of both worlds: complete darkness anytime and softly diffused natural light all day long.

Cool comfort

For superior heat protection, any of our interior blinds can easily be combined with our exterior awning blind. The transparent material deflects the sun's rays before they hit your window to keep temperatures comfortable.

Looking for all-season insulation? Our durable, high performance roller shutters protect against the heat and cold while offering total blackout and reduced noise.

VELUX Energy Blinds have a honeycomb structure for exceptional insulation.

Exterior VELUX Awning Blinds reduce heat intake by up to 72%

VELUX Duo Blackout Blinds

Disney & VELUX Dream Collection

Designed for dreamers

Our new Disney & VELUX Dream Collection is a range of blackout blinds designed for the young – and the young at heart. They're the easiest way to create the perfect environment for healthy sleep in bedrooms with VELUX windows. From Mickey, Bambi and Planes to Minnie, Pooh and Princesses – there's something for everyone with 12 fun and exciting designs.

The best of both worlds

This new collection combines VELUX functionality and dependability with the fun and exciting world of Disney's beloved characters. The blinds offer total blackout, so you can create the perfect sleeping space by completely blocking out light from the room. Perfect for a good night's sleep or a restful nap during the day. The new Disney & VELUX Dream Collection turns bedrooms into dreamrooms.

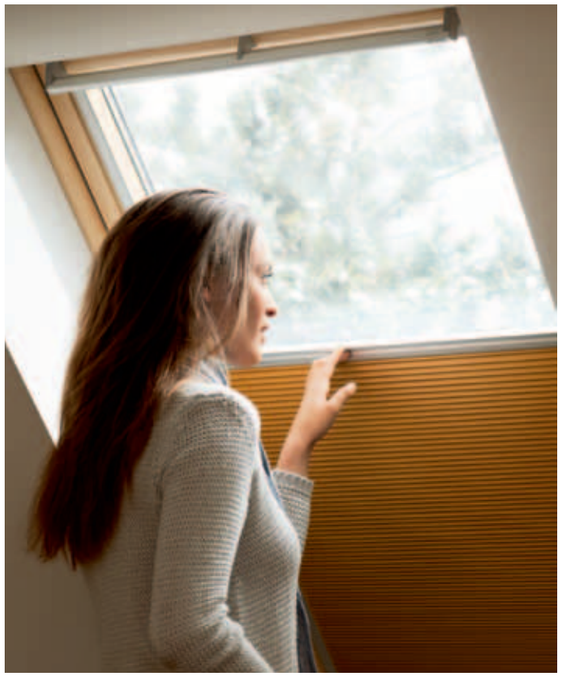
Sunshine and shade for everyone

By opening up your home, roof windows bring the outside in. This bright, airy feel is especially important in the living room. A place where your family can come together, relax and connect each day, the living room should be welcoming and comfortable. VELUX original blinds make it all possible by providing complete light control, privacy and a decorative touch.



VELUX Pleated Blinds can be positioned anywhere in the window for a decorative lighting effect.

Choose your style

Dressing your living room with blinds enhances the look and design. Choose your favourite type of blind and the perfect colour to match your interior.

VELUX Pleated Blinds create a cosy, pleasant atmosphere by softly diffusing incoming daylight. They also offer privacy and can be positioned anywhere in the window. These elegant blinds are available in a wide range of colours and styles to compliment the décor of your living room.

If you are looking for stylish, basic light control and privacy, VELUX Roller Blinds are a good choice. They come in many colours and patterns.

All day comfort

To keep temperatures comfortable all day long, you can combine any interior blind with a VELUX Awning Blind. These transparent exterior blinds block the sun's rays before they hit your window pane to reduce passive heating by up to 72%.

With our new VELUX INTEGRA® touch-screen control pad, you can manage all of your home's automated VELUX products in one place.

Exterior VELUX Awning Blinds reduce heat intake by up to 72%.

VELUX Roller Blind

Home office

Making the most of your spare room

VELUX Blinds and Shutters are the perfect way to adapt a spare room for all kinds of different uses. Whether the guest room doubles up as a home office, a kids playroom or a studio, blinds help you create just the right setting, offering you the comfort of softer sunlight through the day as well as darkness and privacy when night falls.

For day and night

With VELUX Energy Blinds, you can block the sun just where you need it, without sacrificing daylight or your view. Since they are not fixed at the top or bottom of the window, energy blinds are completely flexible. Just position the blind anywhere on your window to reduce the glare of direct sunlight or get some privacy. When fully drawn, energy blinds effectively darken the room to ensure your guests a good night's sleep. Energy blinds improve the insulation, keeping your room warm during chilly nights.

If all you need is to simply soften incoming daylight, and create a cosy, pleasant atmosphere we recommend our pleated blinds. They also offer privacy and can be positioned anywhere in the window.

If you are looking for round-the-clock light control and comfort, our duo blackout blind combines the total darkness of our traditional blackout blind with the daytime benefits of our pleated blind. You get two blinds in one, a sleek design and step-less positioning.

Stay cool

For sunny rooms, an external VELUX Awning Blind helps prevent overheating on the brightest days. VELUX Awning Blinds are transparent, so you can still enjoy plenty of daylight and an unobstructed view. Awning blinds can be combined with any VELUX Interior Blind.

VELUX Pleated Blinds can be positioned anywhere in the window for a decorative lighting effect.

The VELUX Duo Blackout Blind combines the night-time benefits of our blackout blind with the daytime benefits of our pleated blind.

Exterior VELUX Awning Blinds reduce heat intake by up to 72%.

VELUX Energy Blind

Your private oasis

Roof windows will fill any bathroom with natural light and fresh air. The extra daylight helps create a sense of space and these high moisture areas also benefit from ventilation via the roof window. Privacy is just as important as sunshine in the bathroom and that's where VELUX original blinds really come into their own.

Privacy and style

Whether you are getting dressed for the day or relaxing in the tub, natural light and privacy are important elements in your bathroom. With VELUX Venetian Blinds you can have it all – just tilt the slats in any direction to adjust the angle of the light and achieve the right amount of privacy. These cordless, moisture-resistant blinds are easy-to-clean, and they come in nine different colours to suit your personal style and decor.

Brighten your bath

You can fit our elegant, pleated blinds anywhere on the window to provide privacy without spoiling the view. They'll bathe your bathroom in soft, filtered sunlight and they come in a range of 30 different colours and designs, making it easy to add a contemporary touch to any size of room.

Low-maintenance venetian blinds add beauty and privacy to your bathroom.

Can be positioned anywhere in the window as it is not fixed at top or bottom.

VELUX Venetian Blinds have no hanging cords, so they are safe and easy to use.

Kitchen

Cooking in style and comfort

Because the kitchen is often the busiest room in the home, your blinds need to be as practical as they are beautiful. Roof windows are a huge asset in a warm, active kitchen because they provide exceptional ventilation. Since cooking produces steam and residue, your blinds also need to be able to take the heat.

VELUX Insect Screens are made of a durable, transparent net fabric.

High performance blinds

Easy-to-clean VELUX Venetian Blinds are the perfect choice for a kitchen. Not only are these blinds water and stain-resistant, they are also simple to operate. Breakfast, lunch or dinner, venetian blinds let you adjust the amount of incoming light for maximum comfort.

Farewell, uninvited dinner guests

Enjoy your meals with family and friends – not insects. VELUX Insect Screens fit perfectly with your VELUX Roof Window to keep even the smallest pests out without affecting your view. Combine them with any of our blinds to create the perfect, bug-free solution for your kitchen.

VELUX Venetian Blinds have no hanging cords, so they are safe and easy to use.

VELUX Insect Screen stores neatly in its top case when not in use.

Roller Shutter

From full daylight to complete blackout, VELUX Roller Shutters bring you additional energy saving and noise reduction in an award-winning design.

All-round benefits

Roller shutters prevent the loss of energy, keeping your room warm in the winter and enabling you to completely block out all light from the window at any time. They offer noise reduction during hail and rain, protect your roof windows during harsh weather, and provide additional security for your home.

Best of all, our roller shutters are built to last.
They are made of hard-wearing aluminium to ensure top performance no matter what nature throws at them. We rigorously test them in the most extreme conditions to ensure complete weather resistance and years of flawless operation.

Integrated design

Our roller shutters fit perfectly with your VELUX Roof Windows so installation is simple – from outside or inside your home. VELUX Roller Shutters with their sleek top casing, form an integrated part of your roof, regardless of roofing materials. VELUX Roller Shutters have been awarded the Red Dot design award and the IF product design award for their many innovative design features.

Custom control

You can choose from Manual, Electric or Solar Powered operation. And to adjust and soften incoming daylight, VELUX Roller Shutters can easily be combined with any of our interior blinds.

VELUX Solar Powered Roller Shutter

Solar Powered Roller Shutters work day or night, rain or shine – without wiring or a connection to a power supply.

Awning Blinds

For a cool summer room VELUX Awning Blinds provide solar heat reduction whilst maintaining the view through your roof window.

It's not just light we control

External awning blinds are the perfect way to keep a room cool by reducing the amount of heat entering through the window by up to 72%. Especially suited to South facing windows the blind stops the heat from the sun reaching the glass and radiating into the room.

Their design also means they allow a pleasant diffused light to enter the room as well.

Designed to integrate perfectly with your VELUX Roof Window, the awning is made from weather resistant net fabric. When not in use the external blind rolls up and is kept out of sight. For additional light control and comfort, VELUX Awning Blinds can be combined with any interior VELUX Blind.

VELUX Awning Blinds

Operation

VELUX Awning Blinds are available in Manual, Electric (for use with INTEGRA® Electric Roof Windows) or Solar Powered operation (for use with Solar or Manual Roof Windows). The manual awning blind can either be rolled fully up or fully down. To roll down, rotate the window 180° and fix to the hooks on the bottom of the sash. Electric awning blinds put heat control at the your fingertips and can be controlled from anywhere in the room. The solar awning blind comes complete with a battery operated remote control.

With our new VELUX INTEGRA® touch-screen control pad, you can manage all of your home's automated VELUX products in one place.

Exterior VELUX Awning Blinds reduce heat intake by up to 72%.

VELUX Awning Blind

Comfort made easy

VELUX INTEGRA®
touch-screen control pad

The new VELUX INTEGRA® control pad with touch-screen is an easy, intuitive way to manage all of your home's electrical VELUX products in one place. It also features a range of pre-designated settings that help you save energy and create a better indoor climate, including:

Energy balance program
Automatically activates your blinds, awnings and shutters to manage passive solar heating, as well as insulation against the heat and the cold.

Ventilation program
Automatically airs out your home for ten minutes, four times a day. When it rains, the rain sensor closes the window but leaves open the ventilation flap to continuously circulate fresh air.

Holiday program
Set your VELUX INTEGRA® system to 'on holiday' and it will make it look as though someone is home while you are away. Your blinds and shutters open and close automatically to make the home appear inhabited.

Good morning program
Daylight is the best alarm clock. Wake up to refreshing sunshine and fresh air through the window each morning when you set your blinds and windows to open at a specific time.

Good night program
Get ready for a restful sleep by setting your roof windows to ventilate for 10 minutes each evening. After the windows close, VELUX INTEGRA® control pad lowers the blinds and shutters.

Sunscreen program
Controls your blinds and shutters to prevent your home from overheating – and your furniture from fading – during the sunniest part of the day.

Control pad supplied with VELUX INTEGRA® Electric Roof Window.

All VELUX Electric and Solar Powered products are io-homecontrol® compatible. io-homecontrol® labelled products communicate with each other to improve comfort, security and energy savings. Learn more at www.io-homecontrol.com

www.io-homecontrol.com

Daylight and fresh air at your fingertips

Improve your home's indoor climate and make life more comfortable. Explore the possibilities of our extensive range of VELUX INTEGRA® electrically operated products.

Smart control

By opening and closing your electric or solar powered VELUX Blinds, Shutters and Windows at just the right times and intervals, the new VELUX INTEGRA® control pad with touch-screen makes it easy to increase your home's energy efficiency and level of comfort.

The VELUX INTEGRA® family ensures your roof windows, shutters and blinds work together to maximise the benefits of daylight and fresh air in your home. It provides an array of intelligently designed programs with round-the-clock and all-season benefits, while also giving you the opportunity to manage the products yourself manually.

You're in control

VELUX Blinds and Shutters not only come in many styles and colours, they also give you the choice of Manual, Electrical or Solar Powered operation.

Manual

Manual operation is perfect for in-reach manual windows that you only operate a couple of times a day. Our manual blinds and shutters can easily be adjusted by hand or pole.

Electric

For extra convenience, VELUX INTEGRA® Electric Blinds and Shutters can be opened and shut by our VELUX INTEGRA® control pad from anywhere in your home. They make the perfect match for VELUX INTEGRA® Electric Roof Windows.

Solar powered

Our VELUX INTEGRA® Solar Powered Blinds and Shutters are also remote controlled. They are perfect for retrofitting to a manual or solar powered window, as they require no wiring or connection to a power supply. Simple remote control included.

Purchasing your VELUX Blinds and Accessories

VELUX has a long history of a perfect match

Every VELUX Roof Window carries a unique data plate that details the type and size of the window (see photo and examples of data plates). Depending on the age of your window the data plate and its position on the window varies, but it holds all relevant information. No measurements are needed.

1 Select blind

Select a product based on your room type and your needs.

2 Select colour

All blind colours are marked with a colour code. Simply choose your favourite.

3 Select operation

Depending on your needs you can choose between Manual operation, operation with a Rod/Cord, Electric or Solar Powered operation.

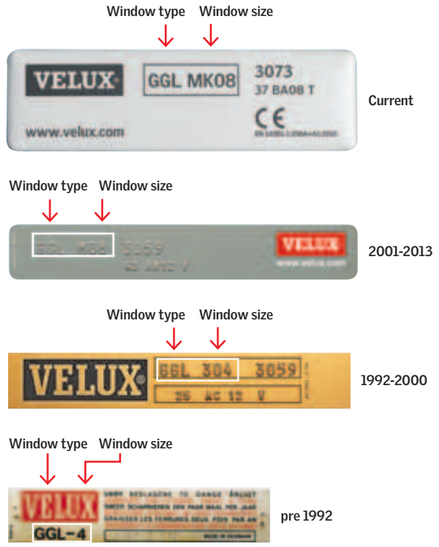
4 Select the right size

To identify your window, consult your window's data plate. In this example the window model is GGL and the window size is MK08. (Code varies from window type to window).

For more information on VELUX Blinds visit www.veluxblindsdirect.co.uk

K?

February 2014 sees the introduction of VELUX New Generation Roof Windows. A redesigned frame and sash to provide a larger glazed area, means a new range of VELUX Blinds to match. The New Generation of VELUX Roof Windows have a 'K' as part of the size code. For example: GGL MK08. For older roof windows choose the size code without a 'K'.



Ready reckoner if your blind code is unknown

After you've chosen the blind you want, you need to establish your window code. This table is a handy ready reckoner to help you find the relevant code on your windows data plate.

Window size code			
Current	**2001-2013**	**1992-2000**	**pre 1992**
CK01	C01		(9)
		(101)	
CK02	C02		
		(102)	
CK04	C04		(6)
		(104)	
CK06	C06

Manual

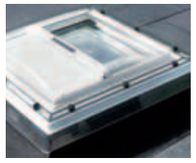
Flat Roof sunscreening



VELUX Awning Blinds for Flat Roof Windows – MSG

Installed between the window and the dome, transparent awning blinds are solar powered and operated by remote control. They keep temperatures comfortable by filtering the strong rays of the sun. Awning blinds are io-homecontrol® compatible and easy to install. Not suitable for Flat Roof Windows fitted with opaque domes.

VELUX Pleated Blinds for Flat Roof Windows – FMG

Perfect for softening incoming daylight and adding a decorative touch, pleated blinds open and close with a handy remote control. They are io-homecontrol® compatible and available in three colours.

VELUX Light Dimming Blind for Flat Roof Windows – FMK

VELUX Electric, Double Pleated Blinds offer light control, light dimming and improved insulation. They have a slim, cordless design and are operated by remote control. Simple to install and io-homecontrol compatible.

KUX 100 – Additional control system that allows FMG Blind and FMK Blind to be fitted to CFP fixed Flat Roof Window. Requires separate installation and power supply – £112.80.

Accessories

Pole Control £30.00

Don't stand on a chair to open and close your VELUX Roof Window or to operate your blind. Do it the easy way with this handy pole. It allows you to open GGL and GGU Centre-Pivot Roof Windows. The pole can also be used to open the blinds when fitted with the correct adaptor.

Pole Adaptors £7.20

You'll need pole adaptors if you're using a pole to open and close out-of-reach blinds. Please bear in mind that you'll require a separate adaptor for each blind you have.

Security Lock £50.40

Key operated window lock for GGL and GGU Centre-Pivot Roof Windows only. Extra security comes with this simple lock that reinforces the 'click shut' mechanism at the top of your VELUX Roof Window.

Security locks cannot be used on Top-Hung Roof Windows GPL, GPU, GHL and GHU.

Opening Restrictor with Key £50.40

Regulate the extent to which your VELUX Roof Window opens with this easy-to-fit safety catch.

Opening Restrictors cannot be used on Top-Hung Roof Windows GPL, GPU, GHL and GHU.

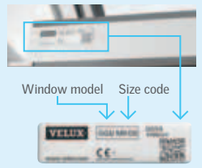
HOW TO ORDER YOUR BLINDS

STEP 1
Check the window code

Every VELUX Roof Window carries a unique data plate, which details the type and size of the window.



STEP 2
Decide on type of blind

Choose from blackout, roller, pleated, etc. and pick a colour from the specific range.

STEP 3
Choose the right size from the coding price table.

The New Generation of VELUX Roof Windows have a 'K' as part of the code size. For older roof windows choose the size code without a 'K'.

New!

Fits only on New Generation Roof Windows supplied from February 2014.

Fits only older Roof Windows supplied before February 2014.

- All VELUX Blinds and Accessories have a delivery time of 5-7 days.
- Delivery time is in working days from receipt of orders placed before 4pm.
- †This code must be used when ordering.
